"Success comes to those who work hard and stays with those, who don't rest on the laurels of the past."

## Principal's Message

We live today in a world that is so very different from the one we grew up in, the one we were educated in. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of Education. It was Margaret Mead who said "Children must be taught how to think, not what to think," and to enable this, our motto of Knowledge, Imagination and Innovation is encouraged through a holistic approach. "To motivate the weak, to address the average and to challenge the gifted" is the teaching vision of our school. We pride ourselves to help them grow and develop into sensitive and responsible citizens of the next generation. Our very competent team of teachers strives to focus on each and every child, monitor and mentor them, appreciate their achievements and encourage them to overcome their shortcomings. I urge all the teachers to create appropriate, meaningful and participative learning situations, inculcating life skills in the impressionable children and appreciating their smallest efforts with all generosity and broadness of vision. Teamwork is the hallmark of R.E.D. I am very sure through collaborative effort we can achieve more to benefit our students who are the future leaders of tomorrow.

With Sincere and Warm Regards  
Ms. Geeta Gaba
