Director's Message

"Imagination is more important than knowledge. For knowledge is limited to all we now know and understand, while imagination embraces the entire world and all there ever will be to know and understand."

– Albert Einstein

Every child is like a seed who has the potential to grow if it is nourished with love and care under the right guidance. In the current challenging times it is essential that children should not only excel in academics but should also develop courtesy, discipline, smart personality, social sensitivity and be imbued with the traditional values and culture of our country.

Starting from one branch to R.E.D Group of Institutions, we have travelled far and we proudly present an institution that intends to make the epitome of true education. The world is dynamic and ever changing and with this we understand that we have to be on our toes, evolving and innovating to be best in whatever we do.

We create an atmosphere where the flame of imaginative and knowledgeable curiosity is lit. This quick thinking attitude is what we seek to inculcate in our students along with human values, thinking skills and analytical skills that will help all the R.E.Dians become the leaders in the global world.

Our endeavour is to equip our students with life skills to face the real world – be it planning, organizing, deciding, questioning, reasoning, analyzing, team building, communicating effectively or dealing with changes confidently.

We at R.E.D create learning and thinking centre that will help children to take a flight of their fancies to academic brilliance. We believe in producing confident learners, self thinkers with a heart of gold, who can apply this knowledge to problem solving in their real life. We firmly believe in letting our students find their own paths and look to provide wind to their wings to help them soar and realize their potential.

At the end I would like to thank all the parents who have reposed faith in our institution and the ideals it stands for. Let me assure you that your loved ones are in safe hands. Our staff understands the ethos of the school and help in guiding and encouraging the children and I am sure that the children will make both you and us proud.

"Each job is a self portrait of a person who does it, autograph your work with excellence."

HEAD BOY

MANISH
XII-B

I chose my way to be the Head Boy of School because I like to face challenges and difficulties come with challenges. The day when I wore the batch, I accepted my duties from the bottom of my heart. It's a fact that our school R.E.D has been continuously reaching the sky limits. Due to continuous efforts of all of us, the school has been a tremendous growth in the field of academic, sports and other co-curriculum activities. For all these achievements the presence and motivating words of Honourable Director Sir proved to be a stepping stone.

Finally, I would like to say that sometimes we need to choose different paths, whose results are unknown to us, but I promise that the result would be in favour of us, if we keep going on!

HEAD GIRL

"Some memories are unforgettable remaining ever vivid and heartwarming."

I deem it my pleasure to be a part of this great institution where education means something more than cramming.

The School provides fully English-speaking environment, co-curricular activities and above all the best teaching faculty. The efforts of teachers are enough to motivate students for hardcore study and the efforts of school authority for school's improvement are really appreciable. Being the Head Girl of the school, I personally feel that the school provides ample opportunities to its students to prove and to live their dreams.
